

City of Sweetwater

EMERGENCY COMMISSION MEETING

AGENDA

MEETING DATE: WEDNESDAY, SEPTEMBER 26, 2018 AT 7:50 PM COMMISSION CHAMBERS, 500 SW 109 AVE.

1. ROLL CALL.
2. PLEDGE OF ALLEGIANCE.
3. INVOCATION.
4. PUBLIC COMMENTS.
5. A RESOLUTION OF THE SWEETWATER CITY COMMISSION AUTHORIZING THE EXPENDITURE FOR THE PURCHASE OF A STATIONARY AIR COMPRESSOR AND PROVIDING FOR EFFECTIVE DATE. (MAYOR LOPEZ)
6. A RESOLUTION OF THE SWEETWATER CITY COMMISSION AUTHORIZING THE EXPENDITURE FOR THE PURCHASE OF A 52" LAZOR FX751 V KAWASAKI ENGINE; AND PROVIDING FOR EFFECTIVE DATE. (MAYOR LOPEZ)
7. A RESOLUTION OF THE SWEETWATER CITY COMMISSION AUTHORIZING THE EXPENDITURE FOR THE PURCHASE OF A CLARKE CA 30 20B WALK-BEHIND AUTO FLOOR SCRUBBER; AND PROVIDING FOR EFFECTIVE DATE. (MAYOR LOPEZ)
8. A RESOLUTION OF THE SWEETWATER CITY COMMISSION AUTHORIZING THE EXPENDITURE FOR THE PURCHASE OF COATS 60X RIM CLAMP TIRE CHANGER AND COATS 1300 DIRECT DRIVE WHEEL BALANCER; AND PROVIDING FOR EFFECTIVE DATE. (MAYOR LOPEZ)
9. A RESOLUTION OF THE SWEETWATER CITY COMMISSION AUTHORIZING THE EXPENDITURE FOR THE PURCHASE OF A CAT SKID STEER HAMMER ATTACHMENT FOR 226D; AND PROVIDING FOR EFFECTIVE DATE. (MAYOR LOPEZ)

10. A RESOLUTION OF THE SWEETWATER CITY COMMISSION AUTHORIZING THE EXPENDITURE FOR THE PURCHASE OF A PREMIUM REFRIGERANT RECOVERY MACHINE BY ROBINAIR EQUIPMENT 001-541-569464; AND PROVIDING FOR EFFECTIVE DATE. (MAYOR LOPEZ)
11. ADJOURNMENT.

THIS MEETING WAS CALLED AS AN EMERGENCY AT THE REQUEST OF MAYOR LOPEZ WITH THE CONCURRENCE OF COMMISSIONERS DIAZ, LLANIO, BORRERO, DUASSO, HOLTZ-ALONSO AND VILLANUEVA.

IF ANY PERSON DECIDES TO APPEAL ANY DECISION MADE BY THE CITY COMMISSION WITH RESPECT TO ANY MATTER CONSIDERED AT SUCH MEETING OR HEARING, SUCH PERSON WILL NEED A RECORD OF THE PROCEEDINGS, AND THAT, FOR SUCH PURPOSE, HE MAY NEED TO ENSURE THAT A VERBATIM RECORD OF THE PROCEEDINGS IS MADE, WHICH RECORD INCLUDES THE TESTIMONY AND EVIDENCE UPON WHICH THE APPEAL IS TO BE BASED.

DECORUM

Sec. 2-55. - Manner of addressing commission; time limit.

Each person addressing the city commission shall step up in front of the rail, give his name and address in an audible tone of voice for the records, and unless further time is granted by the city commission, shall limit his address to three minutes. All remarks shall be addressed to the city commission as a body and not to any member thereof. No person, other than the members of the city commission and the person having the floor, shall be permitted to enter into any discussion, either directly or through a member of the city commission, without the permission of the presiding officer. No question shall be asked a commission member except through the presiding officer.

Sec. 2-57. - Decorum generally.

(a) By commission members. While the city commission is in session, the members must preserve order and decorum, and a member shall neither, by conversation or otherwise, delay or interrupt the proceedings or the peace of the city commission nor disturb any member while speaking or refuse to obey the orders of the city commission or its presiding officer, except as otherwise provided in this division.

(a) By other persons. Any person making personal, impertinent or slanderous remarks or who shall become boisterous while addressing the city commission shall be forthwith barred by the presiding officer from further audience before the city commission, unless permission to continue is granted by a majority vote of the city commission.

Mayor Orlando Lopez

MEMORANDUM

Date: 09/24/2018
To: Honorable Orlando Lopez, Commission President and Members of
The City Commission
From: Public Works
Re: Work/Equipment over \$1,000

DESCRIPTION OF ITEM

Stationary Air Compressor, 13HP, Honda MFG Brand Name: Ingersoll Rand

BACKGROUND

Truck mounted compressor, we currently do not have one.

FISCAL IMPACT

The fiscal impact is \$3,154.35 and it would come from c/o equipment 001-541-569464

RECOMMENDATION

We recommend to go with Zoro with free shipping

LAZER E 52"

Overview

Description

The definition of value.

The perfect choice for professional landscape contractors who want the innovative engineering and commercial-grade quality of a Lazer Z zero turn mower, but in a value package. Features the same welded, heavy-duty, 1.5"x 3" tubular steel unibody frame found throughout our Lazer Z models. You can also choose from two rugged Kawasaki® V-Twin engines or a Kohler® Command™ EFI engine matched to a full-floating, UltraCut™ Series 4 cutting deck, in 48, 52, 60 or 72 inch widths. A digital operator diagnostic module simplifies system monitoring and troubleshooting, while the fuel gauge uses ultrasonic waves to provide a more accurate reading. Comes equipped with a full-suspension seat that enhances operator comfort.

Features

- **Hydro Drive, Simplified:** Our hydro drive system has no hoses to leak and just one easy-to-change belt. Only simple, annual maintenance is required. It also lowers the center of gravity for improved handling.
- **Unibody Frame:** Our one-piece body frame is a classic case of "less is more." Because, fewer parts equal more strength. And, more durability. So, in the interest of accuracy, the Lazer Z's unibody frame is actually a case of "less is way more."
- **Less Time At The Pump:** Gas-powered E-Series models have a single 8-gallon tank with one fill location.
- **On-Board Diagnostics:** Check vital functions at a glance on the digital screen. An electronic fuel gauge with low fuel warning on all Lazer Z units, battery voltage warning, hour meter and OPC safety switch monitoring make troubleshooting easy.
- **Fewer Grease Points:** With just four grease points that only need annual greasing, the Lazer Z delivers maximum performance with minimum maintenance. Greaseless spindles and only four grease points on the entire machine.
- **Ultracut Series 4 Deck:** This full-floating deck uses maintenance free spindle with a splined blade driver to stop bolt tightening on impacts. And, our patented bearing design on idler arm pivots only needs annual service.
- **Rear Discharge Deck:** Available in 60 and 72 inch cutting widths, the rear discharge deck offers increased clipping discharge control, reduced noise, and the ability to trim on both sides of the cutting deck while keeping the operator clean.
- **Tool-less Belt Removal:** Deck and hydro belt can be installed without using any tools.

Equipment

- Blade Spindles: No maintenance, sealed and non-greasable spindles; 7.75"-diameter cutter housing with 25mm (.98") diameter spindle shaft and splined blade driver.
- Drive Tires: 23 x 9.50-12, 4 ply Super Turf®
- Cup Holder: Standard
- Tractor Frame: Unibody, welded, heavy-duty 1.5" x 3" tubular steel.
- Steering Control: Hydraulically dampened twin levers, adjust fore and aft. Adjustable dampeners (3 positions) to customize drive responsiveness. Also adjustable to 2 height positions.
- Front Caster Tires: 13 x 5.0-6, smooth-tread, semi-pneumatic.
- Parking Brake: Lever-actuated disc brake.
- Seat: Deluxe, bolstered suspension seat with Elastomeric Vibration Control material. Adjustment: Fore and aft from Operators' Position.
- Electrical: 12-volt battery with 15-amp alternator.

Power Components

- **Engine Brand: Kawasaki®**
- **Engine Model: FX751V**
- Engine Displacement: 852
- Engine Series: V-Twin
- Engine Type: Carbureted
- Engine Speed: 3,750 RPM
- Air Filter: Heavy-duty canister air filtration system
- Fuel Type: Gas Carbureted
- Fuel Capacity: 8-gallon (30.3-L) single fuel tank with single fill location.
- Fuel Indicator: Yes - electronic Sender
- Drive: Hydro-Drive
- Drive Description: Two Exmark exclusive Parker unitized pump and wheel motor systems with no hoses, 1.7-quart integrated reservoir, spin-on filter and heavy-duty components. 12 cc pumps and 14.5 cubic inch motors.
- Speed: Infinitely variable speed selection from 0-8.0 mph (12.9 kmph) forward, 0-5.0 mph (8.1 kmph) reverse.
- Carb Compliant: No
- Deck Lift: Standard; foot-controlled deck lift changes cutting height and lifts the deck to maneuver around obstacles, or place in transport position.
- Safety Package: Operator Presence Controls (OPC) and drive system interlock, with safety interlock system indicators.
- ROPS: 2-post foldable ROPS standard with seat belt and latch.
- PTO Engagement: MagStop electromagnetic 200-ft-lb clutch with spot brake
- Drive Wheel Release: Allows unit movement without engine running.
- Casters: .50" thick caster yoke arms.
- Model Description: Lazer Z E-Series 24.5 HP* Kaw FX751V w/52" UltraCut Series 4 Deck, Susp Seat & Narrow Semi-Pneum

Decks

- Width / Cutting Deck: 52"
- Deck Style: Floating Deck
- Deck Style Description: Full-floating UltraCut Series 4. Side discharge standard, with molded discharge chute and option to bag or mulch.
- Deck Construction: 10-gauge top that is formed and continuously seam welded, 7-gauge side skirt and 7-gauge reinforced spindle mounting locations for improved strength and reduced weight.
- Blade Tip Speed: Approximately 18,500 fpm.
- Cutting Heights: 1.0" (2.5 cm) to 5.5" (11.8 cm) in 0.25" (0.64 cm) increments adjustable from operator's seat.
- Blades: 3 Blades at 18.00" Length

Dimensions

- Width: 64.8 in. (164.6 cm)

- Length: 79.2 in. (201.2 cm)
- Height: 70 in. (177.8 cm)

NOTES:

*The gross horsepower of these gasoline engines was laboratory rated at 3600 rpm by the engine manufacturer in accordance with SAE J1940 or SAE J2723. As configured to meet safety, emission and operating requirements, the actual engine horsepower on these mowers may be significantly lower. **The gross horsepower of the 3TNV80FT was laboratory rated at 2600 rpm; the 3TNV88C was laboratory rated at 3000 rpm by the engine manufacturer in accordance with SAE J1995. As configured to meet safety, emission and operating requirements, the actual engine horsepower on these mowers may be significantly lower.

Clarke CA30 17E & 20B**Low Cost Walk Behind Scrubber**

The **Clarke CA30 17E & 20B** are part of Clarke's newest innovation in their scrubber line, offering compact cleaning machines at a low cost. Since the discontinuation of the **Clarke Vantage 17** this is now Clarke's 17" scrubber option. Manual controls are operated via the flip of a switch. The rotation of the pad on the floor assists propelling the machine forward. A heavy-duty cast aluminum housing provides protection and downpressure.

The **CA30 17E** is an electric cord-operated model. The **CA30 20B** is the battery-operated model.

Description Technical Specs

Brand New Clarke CA30 20B Walk-Behind Auto Floor Scrubber!

The Clarke CA30™ 20B combines a 20 inch wide cleaning path with a long-lasting onboard battery and charger. That means you can clean faster without having to worry about the nearest wall outlet or looking for the charger when the job is done. In addition, the CA30 20B features a heavy-duty cast aluminum assembly housing a rounded squeegee that delivers quick, complete solution pick-up day in and day out.

Features

- 20 inch wide cleaning path
- Long-lasting batteries and onboard charger
- Easy-to-use fingertip controls
- Low profile design for cleaning tight, hard-to-reach areas
- Rounded squeegee for easy and complete solution pick-up

Product Details

The *Clarke CA30 20B* is a battery powered automatic floor scrubber that can be purchased with a floor scrubbing brush or a pad driver. The brush is great for cleaning uneven floors, and pads are great for smooth floors. No matter what you need, we throw it in for free. This machine also ships for free to any residential or commercial address in the continental United States.

Equipped with a 3 button control panel, the *Clarke CA30* is an easy to use battery powered floor scrubber that any user can learn to operate very quickly. A brush assisted drive means that as the machine scrubs, the brush actually helps to pull it along. There is no traction drive on this unit, as it is not only not needed, but it also helps to keep the cost of ownership down as well as on going maintenance costs.

Utilizing a 10.5 gallon solution tank, and a 20" scrub deck, this machine can effectively clean over 15,000 ft² per hour.

4.5 ★★★★★

Google

Customer Reviews

ong standing expertise in the field, and a great warranty (5 years on parts & 2 years on labor), this value for anybody looking to start cleaning large areas with an auto scrubber.

If this unit is not what you're looking for, please feel free to take a look at our full line of *Clarke* and other brands of walk behind auto scrubbers for more options.

Features

- 3 switches located on the control panel make it extremely easy for any operator to use the machine.
- Rounded squeegee assembly follows behind the scrubber to pick up 100% of the dirty water produced from scrubbing.
- Maintenance-free batteries, onboard charger & your choice of brush or pad driver come with the machine.
- Engineered to withstand heavy daily use in commercial applications including schools, office buildings & medical facilities.
- High productivity rate (15,748 ft²/hr.), which is rated as 5 times faster than traditional mop & bucket cleaning.
- Comes with a great 8 year warranty on the tanks, 5 years on parts, 2 years on labor & 180 days for travel.

1300 DIRECT DRIVE WHEEL BALANCER

Legendary reliability
with state of the art
capability.

Powered by Direct Drive

Motor and spindle are combined into a single, pre-balanced assembly that always stays calibrated to zero.

Static-on-Screen®

Simultaneously displays both static and dynamic unbalance data.

2-D Automatic Data Entry

Offers automatic data entry of the distance and diameter. This eliminates the chance of technician error and speeds up the balancing process.

To learn more about the Coats 1300 Wheel Balancer, or any of our other quality products, contact your authorized Coats distributor or call 1-855-876-3864 for the dealer nearest you.

Legendary reliability with state of the art capability. The Direct Drive Series combines the accuracy and durability of Coats' Direct Drive system with an exclusive set of easy to use balancing features designed to get the job done right the first time, every time.

Powered by Direct Drive™

Motor and spindle are combined into a single, pre-balanced assembly that always stays calibrated to zero. This eliminates the need to frequent calibration and delivers a superior balance result.

Coats® 60X Rim Clamp® Tire Changer w/ Air or Elec Drive Motor

[DOWNLOAD MANUAL](#)

Built for high volume shops, the 60X includes advanced features and a best-in-class external clamping range.

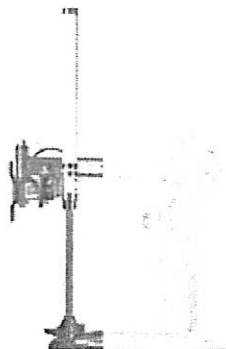

Patented Robo-Arm® Helper Device

The Coats® patented Robo-Arm® cylinder is in line with the piston, allowing direct articulation to maximize power.

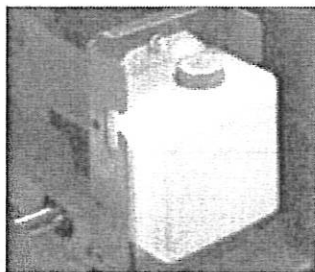

Hand Activated Bead Loosener

The Bead Loosener offers point of use controls to the technician, providing direct line of site, reducing the risk of wheel damage.

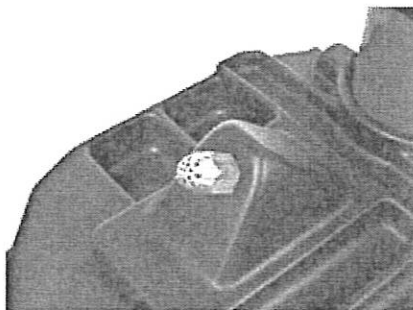

Single Point Sealer

This feature concentrates air flow to seal the beads more efficiently and eliminates excessive maintenance.

Oil Injection System

Direct injection more effectively distributes oil to the moving components, ensuring better lubrication to reduce wear and lengthen life expectancy.

Premium RRR Machine

Mr. Robinair

Part #: ROB34988NI

Features and Benefits:

\$4610.99

- Fully automatic recovery, vacuum leak test and recharge - no monitoring required
- Patented automatic refrigerant refill prevents machine from emptying supply tank
- Only machine with fully automatic oil injection
- Two oil inject bottles for different oils to work on more vehicles with less down time
- Large easy-to-read color display and printer standard
- UV dye inject capability for leak detection
- Automatic air purge eliminates system-damaging air

The new Robinair 34988NI Premium A/C Machine combines ease of use and superior accuracy. It recovers, recycles, evacuates, leak tests and recharges R-134a vehicle systems quickly and accurately. The fully automatic function will recover, vacuum, leak test and charge on its own without the need to stand and monitor the machine.

The product is fully SAE J2788 compliant and exceeds the requirements for charge accuracy and recovery efficiency. Robinair's patented automatic refrigerant refill feature maintains a user-selectable amount of refrigerant in the internal vessel and signals when it's time to change supply tank, no monitoring required. The 34988NI will automatically add oil if necessary using load cells that measure the amount of oil removed from the system and automatically putting the right amount of A/C lubricant back into the system and new 34988NI now comes with two separate oil inject bottles so two different types of oil can be stored and injected making it easy and convenient as technicians service different vehicles. A large, easy-to-read color display and a printer are standard upgrades on the new 34988NI. It also has the capability to inject UV dye into the vehicle's A/C system for leak detection and making any future maintenance easier. An optional refrigerant charge and oil capacities database is available for North American market vehicles which saves time from having to look up unknown charge amounts.

ARCTIC COMMANDER

Mastercool introduces its new ARCTIC COMMANDER line of RRR machines. Equipped with the latest technology, all models come standard with an 8" command center. The graphic user interface (GUI) will enable navigation through all functions and features with the greatest of ease. There is no longer a need to read any external instructions or paper manuals, simply sit back, watch and learn how to use your machines. All machines are also equipped with Wi-Fi capabilities, allowing for realtime, interactive communication and troubleshooting.

It's about time somebody introduced RRR machines for the 21st century!

R-1234YF Recover, Recycle and Recharge machine

- Fully automatic operation
- 98.5% recovery efficiency
- Charge accuracy within +/- 1/2 oz.
- Automatic internal tank refill
- Automatic oil drain shows how much oil was removed from the system during service
- Integrated refrigerant identifier
- Programmable vacuum operation
- System leak test to identify gross leaks
- Exceeds SAE J2843 requirement

ROB AC1234-4

\$4599

Premium Refrigerant Recover, Recycle, Recharge Machine

- Fully automatic recovery, vacuum leak test & recharge, no monitoring required
- Fully SAE J2788 compliant
- Patented automatic refrigerant refill prevents machine from emptying supply tank
- Fully automatic oil injection
- Large easy-to-read color display and printer
- Automatic air purge eliminates system-damaging air

ROB 34988NI

\$6499

A/C Refrigerant Recovery & Recycling Machine

- Fully automatic operation
- 95% recovery efficiency
- Programmable vacuum operation
- System leak test
- Automatic oil drain
- Automatic air purge
- Integrated refrigerant identifier (meets SAE J2927)
- Automatic internal tank refill
- Color display
- On-board printer
